Directors' Review Report

The Directors of Aisha Steel Mills Limited (ASML) present herewith Directors' Review Report together with condensed interim financial statements (un-audited) of the Company for the third quarter ended March 2022.

The HRC prices gradually declined from the peak of US\$1050, FOB China, observed in May 2021 to US\$ 800 FOB China in December 2020. The market remained stable at these levels in January 2022 as well. However, the tension between Russia and Ukraine, which erupted to a full-blown war, gave rise to a new wave of commodity price increase. HRC prices also increased reaching US\$ 950, FOB China in March 2022. The market is nervous and evaluating situation on daily basis as the war rages on. The local manufacturers were compelled to increase prices to pass on higher input cost as well as on account of depreciating PKR against US\$.

Operational Review

The total quantity sold during the July-2021-March 2022 period, was 235,800 tons. Out of which 30,647 tons were exports to Europe, America and Canada and several other countries. The quantity sold in the corresponding period last year was 301,644 tons, showing a decline of about 22%. The exports during the July-2020-March 2021 period were limited to 12,922 tons.

The total quantity produced during the period was 245,560 tons compared to 276,787 tons produced in the corresponding period last year, showing a decrease of about 11%. The production curtailed due to slow offtake and buildup of finished goods inventory. The average inventory in the July-to-March period increased to 31,455 tons compared to 13,273 tons recorded in the same period last year.

A brief summary of the financial results as on March 31, 2022 is as follows:

Description	July- March Period	
	March 2022	March 2021
	Rs. In Million	
Revenue	49,117	40,754
Gross profit	3,481	8,352
Profit before tax	695	6,615
Profit after tax	514	4,752
	Earnings / (loss) per share in (Rupees)	
EPS	0.56	6.11

Future Outlook:

International steel and steel related commodities prices are still fluctuating due to on-going Russia and Ukraine war. The resurgence of COVID in China is also not helping. The local market is concerned about the political developments in the country, currency fluctuations and increase in discount rate. The situation is expected to be stabilized in the near future.

Acknowledgement

We would like to record our appreciation and gratitude to the Banks and all the stakeholders for the continuous support in the ongoing operations as well as in the expansion project. We also acknowledge the support of Regulators for their continued support.

For and on behalf of the Board
